

POLICIES

HEALTH & SAFETY POLICY

At Trend Hotels, the health, safety, and well-being of our employees, guests, partners, and visitors are fundamental to our operations. Across our properties, including Avdou Collection, we work to maintain a safe and healthy environment through prevention, awareness, training, and appropriate procedures.

Safe Working Environment

We aim to identify and minimize potential risks through appropriate safety procedures, workplace inspections, risk assessments, and preventive measures.

Training & Awareness

Employees receive guidance and training relevant to their roles, helping them understand safety procedures, recognize potential hazards, and respond appropriately when required.

Employee Participation

Health and safety are a shared commitment. Employees are expected to follow established procedures, use appropriate protective equipment where necessary, maintain safe working areas, and promptly report accidents, incidents, or potential hazards.

Emergency Preparedness

Our properties maintain appropriate emergency procedures and first-aid provisions to support an effective response when needed.

Continuous Improvement

Health and safety practices are regularly reviewed in line with operational needs, applicable legislation, and industry standards, helping us continuously strengthen the protection and well-being of our people and guests.

Warm regards,

Manos Apostolakis
